SUBMISSION CONCERNING PUBLICATION

The above-captioned patent application was republished as U.S. Patent Application Publication No. 2007-0275015 A9 on November 29, 2007. Applicants are uncertain as to why the application was republished, as it had been previously published as 2005-0053624 A1, on March 10, 2005, and a request for republication was not filed. It may be because a Notice of Allowance had issued and Applicants paid the issue fee and a publication fee, after which the Notice of Allowance was withdrawn. Regardless, the November 29, 2007 publication does not include the currently pending claims, as shown in PAIR. Although no charges are believed to be due, if there are any charges or any credits, please apply them to Deposit Account No. 03-2095.

Respectfully submitted,

Date: February 15, 2008
